MANUFACTURER'S CERTIFICATE

(This document is not required by an import regulation, it is issued voluntarily)

Siegersbrunn/Germany

We confirm that the moulded INKA pallet (particle board) packing destined to be exported to South Africa, by our client

Company:

Street:

City, country:

**is a composite of heat processed wood according to FAO-IPPC-ISPM15.
Therefore it is considered as "processed wood material"**

INKA particleboard pallets were manufactured in the European Union (Germany or Netherland) and are totally free of plant pests without further export treatment.

Moulded particleboard pallets are manufactured according to the WERZALIT-process in the same way as or particleboard by using pressure, heat and resin. They are regarded as heat-treated and totally free from living plant pests. During the process of moulding the pallets, the wood is exposed to a pressure of 1000 tons and to a temperature of more than 200 centigrades (aprox. 1300 psi and 400 degrees Fahrenheit).
